

# HASSAN MALIK

*Principle Director | The Malik Developments Corporation (TMDC)*

Hassan is a real estate developer, investor, and material sourcer operating between Dubai, Muscat and Toronto. Hassan started his real estate development portfolio in 2016 in the Sultanate of Oman with his senior partners – HH Rawy Al Said and Muscat Hills International Developments (MHID). Since then, he has overlooked TMDC’s retail division overseeing the development of 700,000+ SQFT of development. Hassan’s vision is centered on curating destinations that serve not just as retail hubs, but as dynamic social ecosystems.

Prior to his transition into real estate, Hassan was the founder of RISH - Oman’s premier destination for elevated living solutions, offering a curated selection of high-end kitchens, appliances, wardrobes, vanities, and architectural materials. Hassan now forges exclusive European partnerships and seamlessly integrating these brands into his real estate developments—bridging the gap between property development and lifestyle design.

Beyond business, Hassan is a firm believer in giving back. He is actively involved with the Malik Family Foundation, where he leads initiatives that provide educational support to underprivileged children, with a particular focus on funding school tuition and resources. His philanthropic reach spans across multiple continents: in Dubai and Muscat, he supports regional drives for food security and youth mentorship programs; in Pakistan, he contributes to non-profit schools and healthcare foundations in underserved rural communities; and in Toronto, he partners with local shelters and after-school youth programs to help build brighter futures through education and empowerment.

Previously, Hassan worked in merchant investment management and corporate law. He holds a Bachelor’s degree in Finance and Economics from the University of Toronto, St. George.
